LIVING in FUKUOKA and CAMPUSES

福岡市とその周辺 およびキャンパス情報

Living in Fukuoka

A pleasant coastal city of 1.6 million people and the largest metropolis on the island of Kyushu, Fukuoka is Japan's gateway to continental Asia. China and Korea are both close by—the city lies midway between Tokyo, Shanghai, and Seoul—and life here still reflects an ancient heritage of cultural exchange. At the same time the city enjoys a growing reputation as a modern, vibrant regional trade and production center. Recently, the New York Times ranked Fukuoka 19th on its list of "52 Places to Go in 2023".

Host to national and prefectural government offices, and to the regional headquarters of many major companies, Fukuoka is Kyushu's most active, and largest, business center. China, Korea, and the United States have established consulates in the city, too. With thirteen major universities and 73,000 students, Fukuoka is noted as a city of youthful verve and fashion. Also, all parts of the urban area are easily accessible by subway, bus, or bicycle. Fukuoka is a safe and secure place to live in like other cities in Japan.

Kyushu and beyond

A land of mountains, hot springs, and historic treasures, Kyushu has always been at the center of Japan's cultural contacts with the world outside. You can take advantage of winter and spring breaks to explore the island or other parts of Japan, while Korea and China are just a short trip away by hydrofoil or plane. It's a great way to deepen your understanding of this fascinating part of Asia.

Overviews

JTW is an ideal program for your year exchange if you are looking for an opportunity to learn about contemporary Japanese culture and society, both academically and experientially, while not having Japanese proficiency. JTW enables you to extensively study at one of Japan's top universities located in one of the most popular cities across the country. This is an English-taught program, but it also offers you the opportunity to start learning or to further hone your Japanese language skills for credit through the University's renowned Japanese program. JTW runs for 10 months, starting in October and ending in July the following year. You are also welcome to join for only one semester, either Fall-Winter (Oct.-Feb.) or Spring-Summer (Apr.-Jul.).

JTW offers you a comprehensive package of living and learning experiences including cultural immersion for experiential learning as well as academic learning for credit. Students of any academic majors are welcome; you may create a portfolio of study suited to your interests across a broad range of courses, projects, and activities. JTW is a diverse group of about 50 students coming from leading universities all over the world, and the program coordinators – university faculty members with a rich background in international education and research – work closely with you. A JTW tutor, your own Japanese student partner, will be on hand to help you throughout your stay.

Academic Programs

As a JTW student, per semester you will be required to enroll in a minimum of six credit-awarding courses as overviewed below.

JTW Core Courses – The core of JTW's academic learning component, which address a range of topics in Japanese Studies, including courses on history, literature, popular culture, economics, business, education, law, religion, and politics, among others. All the courses are taught in English by enthusiastic instructors from a variety of faculties at Kyushu University. Each JTW student is required to enroll in at least two JTW core courses per semester. (2 credits/course; 3 credits negotiable)

Japanese Language Courses – Kyushu University's Japanese Academic Courses (JACs), which offers eight levels of comprehensive Japanese language instruction, from beginning to advanced. There are also skill-specific courses on writing, speaking, and kanji. Per semester, each course consists of two quarters (7.5-week sessions per quarter), and each session is run as an intensive, small group, practical session. Up to three JACs courses may be counted toward fulfilling the JTW enrollment requirement. (2 credits/course)

Independent Study Project (ISP) – An optional, semester-long, self-driven research project to carry out within the field of or closely related to Japanese studies of your interest. Your ISP is supervised by a University faculty member who is arranged by the JTW program, and toward the end of a semester you are required to present the findings both in written and oral forms. Only one ISP is counted toward fulfilling the six courses enrollment requirement. (2 credits/course)

Advanced Laboratory Research (ALR) – Another optional research opportunity for you to design and carry out a research project at advanced levels in engineering, general science, agriculture, or pharmacy. You will plan and carry out an intensive laboratory research project under the guidance of a faculty specialist in the relevant area. An ALR counts as two courses toward fulfilling the six courses enrollment requirement. (2 credits/semester)

Regular Faculty Courses – Courses offered by regular faculties outside JTW – such as Literature, Law, Economics, Design, Science, Engineering, etc. – and primarily for their respective degree-seeking students. Through JTW, you may enroll in some of these external courses except for postgraduate courses. Up to three regular faculty courses may be counted toward fulfilling the six courses enrollment requirement. (2 credits/semester)

Experiential Learning Activities

JTW uniquely provides the following resources and opportunities for your experiential learning of history and contemporary culture and day-to-day social life in Japan.

JTW Field Study Trips – Over the course of a program year, JTW carries out a total of 11-13 field study trips roughly at a once-a-month pace. Most trips will take you somewhere in the northern part of Kyushu Island, including Nagasaki. Some trips involve physical activities such as rice reaping and planting, seated meditation at a Buddhist temple, and interacting with local elementary school students in their classrooms. Students are required to cover a small part of the expenses.

Home Visit Program – If interested, you will be introduced to a Japanese family living in the Fukuoka City area, typically with school-age children. Your host family will host you on periodic weekend visits to their home and may take you out to popular local sites and events. Some students end up staying with more than one host family and developing warm friendships that last well beyond their program participation period.

Student Tutors – JTW provides you with a student supporter, a JTW Tutor, who is typically Japanese and offers you one-on-one assistance. Your Tutor will help you to settle in, explore Fukuoka City with you, accompany you on program outings, and arrange informal parties and trips.

Ito Campus

Two types of Japanese language curricula are available at Ito Campus as described below, and exchange students may choose courses based on their circumstances and needs including their proficiency levels, interest in earning credits, and time-availability to focus on the language learning, among others.

伊都キャンパスでは、以下のとおり2種類の日本語コースを提供しており、日本語の習熟度、単位取得の必要性や、日本語学習にかけられる時間など、個別の状況に応じてコースを選択することができます。

1. Japanese Academic Courses (JACs)

日本語アカデミックコース

JACs are for students who want to earn credits in Japanese language. These courses consist of four types – comprehensive Japanese, kanji, conversation, and composition – and offer up to eight levels of learning, ranging from absolute beginners to advanced learners.

JACsは、日本語の単位を取得したい留学生のためのコースで、総合日本語、漢字、会話、作文の4つのコースから構成されています。クラスは8つのレベルに分かれており、全くの初心者から上級者までが学習できる授業内容を提供しています。

2. Japanese Training Courses (JTCs)

日本語課外補講コース

JTCs are for training purposes, not for credit, offered primarily to graduate students, research students, and exchange students at both undergraduate and graduate levels. Through JTCs, comprehensive Japanese courses are offered from Level 1 up to Level 7 (from absolute beginners to advanced learners). JTCs are recommended to exchange students who are interested in taking Japanese language courses but are not in need of earning credit in those courses.

JTCsは、主に大学院生、研究生、交換留学生(学部・大学院レベル)を対象にした、単位取得を目的としないコースです。レベル1からレベル7までの全くの初心者から上級者までを対象とした、総合的な日本語の授業を提供しています。日本語は学習したいが単位取得の必要はないという交換留学生の方にお勧めです。
